

1

Product Specification:

The moss picture is made from high-quality MDF board. Eco-friendly printing ensures vibrant colors, UV resistance, and precise details. The stabilized moss is natural, antistatic, hypoallergenic, and maintenance-free. It has sound-absorbing properties, filters the air, and absorbs moisture. Eco-friendly dyes give it a durable color. The picture is ready to hang thanks to hooks on the back of the frame.

Installation Instructions

1. In the designated spots, install hooks or nails – for concrete and brick walls, drill holes and use wall plugs, while for wooden or plasterboard walls, simply hammer in nails or attach hooks. **2.** Once the hooks are installed, hang the picture using the hooks located on the back of the frame. **3.** Finally, ensure that the picture is stable and evenly mounted; adjust its position if necessary.

2

Care Instructions for Moss

Moss requires a standard air humidity level: between 40% and 60%. In rooms where the humidity is lower, it is recommended to use a humidifier or mist the air. However, do not expose the moss to direct contact with water (e.g., in showers or near sinks). The picture should not be exposed to direct sunlight, as moss is not UV-resistant. Keep the moss away from direct heat sources (at least 2 meters from radiators, fireplaces, and large sunlit windows). The moss is permanently stabilized, meaning it does not grow and does not require trimming or watering.

3

How to Clean the Picture?

The picture should be cleaned with a dry or slightly damp cloth. The moss can be gently blown with cold air or vacuumed on low power. Avoid using detergents and contact with water.

4

IMPORTANT! Follow safety precautions when using this product.

Keep the picture out of reach of children and pets to avoid the risk of damage to the moss or accidental ingestion of its fragments. Do not expose the picture to high temperatures, open flames, sparks, or hot surfaces. Ensure the picture is properly mounted to prevent it from falling and causing potential injuries. Keep the product away from moisture and direct sunlight to maintain its durability and aesthetics. After use, dispose of the picture in accordance with regulations for natural and wooden waste. Failure to follow these guidelines may result in product damage or pose health and safety risks to users.
